## Fears and worries

A year 6 pupil asked, "what if I'm getting bullied when I move up to High School?"

Well.... it only gets sorted out if you tell someone about it and anyway, you should not be worried about that at Crofton Academy as we don't tolerate bullying in any way! There are serious consequences for those who feel it acceptable to bully. To be honest, we haven't heard of any bullying since we've been here.

### What if I lose my way round school?

\*Ask a member of staff or a year 8 buddy to help you to your next class. Anyone will be more than happy to help you.

\*Never hesitate to ask something to someone you don't know at Crofton, as we are not big scary monsters and have all been in your shoes so know what it is like!

### What if I can't make friends?

\*The only way you can make friends is to be yourself. DON'T change who you are - not for anyone!

\* You WILL find your mates and they will like you for who YOU are.

### How is high school different from primary?

You will have more than one teacher because you will have different lessons. This means you have to change room for most lessons but with your map, planner and teachers on hand to help you out. We know you will be fine.

The lessons are much more fun and there are some that you might not have had in primary but we promise they are ALL fun, exciting and unique! It is much more grown up than primary school and has a wider variety of activities such as Aspire and Accelerated Reading etc. You have to work more independently but you also learn teamwork skills for the future.

The school itself is much bigger but, it's not that hard to find your way round because of the very simple layout.
